ITB Two-Year Roadmap

Dennis Dickenson

Department of Administration
Information Technology Services Division
CIO Support

Agenda

- Proposal

- Proposed Process

- Breach

- Subcommittee Decision

Proposal

- That the ITB should utilize subcommittees to reach consensus on complex issues

- Why?
  - Issues are significant and affect a broad audience
  - Require detailed research and analysis
  - Beyond the scope of a 2 hour bimonthly meeting

Proposed Process

- Process is results orientated and consists primarily of:

  - Establishment of a subcommittee
  - Development of recommendations
  - Development of a consensus document
  - ITB approval of the consensus document

- Significant work is required between meetings

- ITSD will provide staff assistance

Breach

- Data breach
  - When personal information secured by an organization is lost, stolen, or misplaced

  - Most breaches expose some kind of personally identifiable information

    - Name
    - Social Security number
    - Financial account numbers
    - Passwords
    - Health/medical information

INFORMATION TECHNOLOGY SERVICES DIVISION

Breach Types

- Intentional: Information stolen for profit
  - Criminal act

- Unintentional: Information lost in transit
  - Physically or electronically

INFORMATION TECHNOLOGY SERVICES DIVISION

Subcommittee Decision

- Should the ITB form a subcommittee on breach?

- If so, a subcommittee chairperson is required.
